Dear Wayne —

Wanted to say thanks for the great time in Ontario. I saw 9 bears total in 4 nights including the sow that I thought was going to try to climb the tree w/ me. Wow! what a rush.

I recieved my arrow & your note. I appreciate you sending that to me. I simply shot him too high. But that's part of hunting no one wants to happen but must except because it will happen sooner or later.

I trully learned alot about bear hunting (it's not the same as deer hunting!).

Thanks Again!

Bryan Rowner

P.S. That spot bear still haunts my dream
