Dear Wayne,

Now that I have began to catch up at the office, I thought I would take the time to tell you how much I enjoyed the hunting out of Foggy Mountain Camps.

It was a quality hunt conducted by professionals from start to finish.

I will never forget those two good bear that came to my bait. Even though they are still roaming the "Big Country" for another hunter, I will always remember vividly their visits to my stand.

Good luck and may bear hunting continue for all time.

Sincerely,

Earl Shelsby
