Dear Wayne,

I would like to thank you for the wonderful, and I might add, successful time you showed me in Ontario.

I learned much from you and the bears. The afternoon we spent discussing your baiting techniques was great. I hope to continue the conversation later.

A special thanks to you for the moose and walleye. My cooking would have killed me if it weren't for you coming to the rescue. I would still like your fish batter recipe if you ever wish to reveal the secret.

The bear made it home with me without a problem and is now awaiting the rug treatment at my taxidermist. As of the 15th my rod is still in transit. Can you believe it? Lost my rod coming and going. What a drag.

Again Wayne thank you and I'm sorry I missed you on the way out but I made it to Thunder Bay at five to five that night. Enjoy yourself Senior.

Carl J. Cupp
