Dear Wayne:

This past week certainly was an experience I will never forget, and one I would like to repeat as soon as possible. Shirley and I not only had an outstanding vacation interlude, but were very impressed with the bear hunt in its entirety. Notwithstanding the fact that I got my 260LB plus bear within the first few hours of the hunt, I have to admit that this was one experience that any big game hunter or sportsman should be party to at least once in a lifetime.

You, personally, your other "master guides", and certainly not least of which, your hounds, were outstanding in the hunt. Your experience and knowledge of the country is unsurpassed in my mind. I would definitely recommend Foggy Mountain Guide Service to anyone who wants to take a black bear. I also overwhelmingly recommend your products to be used in conjunction with the hunt.

The beautiful mountainous country with the changing of foliage to the bright colors of Fall were a big plus, which just adds to the enjoyment of the hunt and vacation.

I plan to settle on the dates within the next few days for next year to bring the directors of The R. J. Parker Company on a hunt with Foggy Mountain Guide Service. Right now it looks like it has to be the week of September 21-26, 1987. There will be four of us hunting, and there is the possibility that we will not be able to leave the wives behind.

Please take good care of "Slop Jaws" for me, as I will definitely be needing him on my next trip. Give him a big hug for me. Once again, we offer our thanks to you and Donna for the tremendous hospitality and companionship on a great hunt.

Sincerely,

Bob Parker, Chairman
