## Greetings from the Maine Woods!

Thanks to all of our hunters for a great 2015 season. The bear population and all signs in the woods indicate that the 2016 season will be awesome! We all look forward to seeing all of you again.

It was fantastic to have my son Jason back with us this year. He has been bear hunting with me since he could walk, and my greatest dreams have been for him to become a major part of Foggy Mountain.

Jason led our team of guides and even found time to assess the habitat conditions and bear signs in our hunting regions. He is working on a potential expansion for our 2016 season — watch for full details in our year-end newsletter.

## Highlights of our 2015 Bear Hunt

Our 2015 bear hunting season turned out to be a dandy – both in terms of bear seen and bear taken.

This summer’s unusually hot weather continued into the bear season and gave us a fit for a handful of days. The huge bear we knew were on bait held up in the swamps and bogs until the temperatures dropped a few degrees. Problem was, it was so hot it did not cool down until after shooting hours. Subsequently, during those days we took some smaller bear.

To the pleasure of many Foggy Mountain hunters, most days they got into plenty of bear and some took a real nice one too! Check out our year-end newsletter for pics and info.

## He’s Baaack!

Our fall hunters were treated to the added expertise and awesome energy of Wayne’s son Jason Bosowicz.

Jason is a great guy to talk with, and his bear hunting knowledge is topped by only one other guide in all of Maine — of course, that’s “Wayne the Bear Hunter.”

Whether guiding bear hunters or landing a nice cutthroat in Montana, Jason is a consummate outdoorsman, and was an accomplished Maine Game Warden before heading west for big adventures. 

# “Take More Bear”

Maine’s Fish & Wildlife Department continues their request for hunters to kill more bear. Statewide harvest for 2015 is expected to be down due to the record high temperatures and abundant natural feed in the woods.

Biologists’ good news? The bear population is thriving, at a record high and is still growing rapidly.

Foggy Mountain intentionally under harvests the bear in our hunting areas, and the population is incredible. We are considering a possible expansion in our 2016 season, so stay tuned.

## 2016 Bear Hunts

Foggy Mountain offers two bear hunting packages to suit everyone’s individual needs.

Both hunts are in bear infested regions where we have hunted or performed field research for decades. Bear hunting success is the same in both areas, but our accommodations are different:

- Lodging for our **Highlands, Katahdin and Moosehead Region** hunts is housekeeping style (each cabin has a full kitchen).
- Lodging for our **West Branch Region** hunts is American Plan (all meals are included).

Both hunts are on private lands with access controlled by gates, as are 95% of our total hunting territories.

What’s more, you’ll enjoy home-cooked, all-you-can-eat, lumberjack-style meals, reputed to be the biggest and the best in Maine. The coffee pot is always on. We even offer wireless internet if you “just can’t get away from it all.”

“Hi Jason. Thank you for a great time at bear camp. I got to see everything I hoped for. Had my chance at the bear of my dreams and saw a bear come in from a ladder stand. I’m already starting to save up to make the trip back up next year.”
