## Greetings from the Maine Woods!

I would like to thank all our hunters for a fabulous 2020 season.

The bear population continues to grow in our great state, ensuring that the 2021 season will be just as successful.

I strive year round, in and out of the woods, to make your hunt the best hunt possible. Out of the woods, I serve on the Board of the Maine Professional Guides Association, working yearlong to ensure a future for bear hunting in Maine.

Thank you for choosing to hunt with Foggy Mountain. I look forward to seeing you all next season.

Until then, feel free to call and chat. I enjoy keeping in touch with fellow hunters throughout the year. 🐾

— Brandon Bishop

Congratulations to Brandon's daughter Austin (at right), who got her second deer ever this November. Maine, "the way life should be!"

## Highlights of our 2020 Bear Hunt

The 2020 bear season was one to remember! Many great bear were taken and more bear seen!

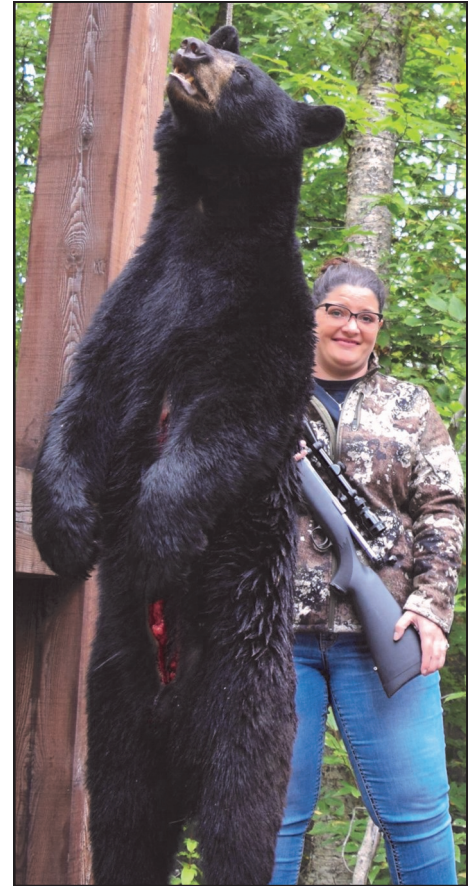

Despite this year's travel concerns, hunters braved the new "travel rules" to "self-isolate" in Maine's vast forest, and sitting quietly in the woods made for perfect "social distancing."

The incredibly hot spring and summer here in the great State of Maine put our region in a drought that made for one heck of a bear season!

The hot, dry weather resulted in a shortage of natural food which led to significantly more bear activity at our bait sites. And the bear loved what we had to offer.

Add in some great shot placement, and many nights ended with multiple bear to process. Nothing says "great season" like a full game pole.

Bottom line, we had a record breaking, busy and fun season here at Foggy Mountain. 🐾

Stacy Hott's "Wicked Big" Bear

## Foggy Mountain Tales

### Caribbean Cruise or Bear Hunt Which Would You Choose?

Long time hunter and friend Richard Hott had a great anniversary trip planned for his wife. Unfortunately, along came the 2020 pandemic and plans had to change.

So, what to do? Well, Richard talked his wife Stacy into a bear hunt instead! Way better than a Caribbean cruise, right?

Although unlikely this was Stacy's first choice, they ended up with an anniversary they will never forget.

Mother Nature was not in our favor on the first evening of the hunt. High winds made the bear very wary and they did not show themselves at Stacy's bait site.

The second night was a different story! After a few hours in the blind, Richard spotted movement in the distance. As the black shadow crept through the alders towards the bait, it allowed Stacy time to get her gun up and ready for her shot!

When the bear came in and presented a shot, she wasted no time squeezing the trigger and made an awesome shot!

When Brandon arrived to track and recover the bear, Stacy and Richard gave assurances that it was a very nice bear!

Coming up on the bear in the thick fir trees, the bear looked like a small black car parked in the thicket! Stacy had harvested a "wicked big" Maine trophy bear!

Needless to say, the bear hunt turned out way better than any other anniversary trip she had been on, and Stacy assured us the bear will be a full mount! 🐾

## Wildlife Experts Say "Take More Bear"

Foggy Mountain intentionally under harvests the bear in our hunting areas, and the population has continued to increase.

The State's bear biologists estimate that the areas of Maine where we hunt have population densities well over one bear per square mile. The thriving bear population is at a record high and is still growing rapidly.

### "Take More Bears"

Biologists at Maine's Fish & Wildlife Department continue their request for hunters to kill more bear. They have even been holding meetings to discuss how to achieve this goal.

Foggy Mountain knows how to help. We added many new bait sites last year and they became active this season.

Brandon anticipates that the 2021 and 2022 seasons will produce some outstanding bear. 🐾

## Foggy Mountain Tales

We never tire of hearing our hunting families' stories and smiles — and love sharing them....

### Share Your Heritage

We all recognize how important getting youths involved in hunting is to preserving our hunting traditions, skills and privileges.

Of equal importance is the need for us to include and encourage older hunters.

One of the biggest reasons older hunters stop hunting is the physical limitations of aging and the loss of their hunting partners due to health reasons.

Think about it. Definitely take your sons and daughters hunting. But let's not stop there. Take your dad or granddad too.

The rewards will exceed your highest hopes, as they did for Cress Sowry this fall, as you will read below.

### Take Your Father Hunting! Cress' Truly Memorable Hunt

Cress Sowry contacted us early last year, wanting to book a hunt for himself and his father, who had never taken a big game animal before.

We had great conversation and he decided to come for the first week of the 2020 bear season. Cress Jr would be using his bow and Cress Sr's weapon of choice was a rifle.

Wasn't long into the 2020 bear season, and Cress Jr arrowed his very first black bear. Cress Sr also saw a bear on his first night in the stand, but gave it a pass as it was not what he was looking to place his tag on.

On day two, Cress Jr asked if it would be ok to sit with his father for the remainder of the hunt.

Our blinds are big enough for two hunters, but we do not recommend it due the fact that it means twice the human scent and movement at the bait site.

Cress and Cress assured us they would be as careful as they could with scent control and movement.

About an hour before dark, they caught movement coming from the right of the bait. Wasn't long after and they saw movement at the bait.

Cress Sr put his crosshairs on the bear, waited for the perfect shot to line up, and then dropped a nice boar in his tracks.

Cress Sowry Sr with his beautiful bear

Cress Sr was able to harvest his first big game animal with Cress Jr by his side. It was an amazing moment for father and son to share.

Both Cress Jr and Sr harvested their bear just 24 hours apart. It is a memory that we are sure they will not forget, and likely will be talked about often! 🐾

### Take Your Son Hunting! Scott & Kyle Stirn's "Double"

Scott hunted with Foggy Mountain in 2018 and harvested his very first Maine Black bear. Scott called this summer to see if he and his son Kyle could come this season. Kyle had never harvested or even seen a bear.

It was great seeing a familiar face when Scott arrived on Sunday. We got them settled in their cabin and Monday the hunt was on!

When Scott went to his stand on Monday, a bear had already hit the bait. Unfortunately, it did not show itself that evening. Monday afternoon went the same for Kyle, who also saw no bear.

On Tuesday, a very big bear slipped by Scott's bait, but never slowed up long enough for a good clean shot.

As for Kyle, he again did not see a bear, but held high hopes because his bait was still getting hit — just not while he was there.

Wednesday was a different story! After about an hour on the stand, a bear presented Scott with a beautiful shot. It was a quick, clean, kill and he left no tracking job to be done!

We had just arrived back at camp to hang Scott's bear on the game pole and the phone rang. Kyle had harvested his bear too!

Father and son both scored on the same evening of the hunt, just hours apart!

There were a few "good natured" comments about whose bear was bigger, but it was truly a memory that neither one of them will forget.

They both left with a smile on their face and we can't wait to see them again! 🐾

"Brandon and guides provided my son and me with an experience that will last a lifetime! Thanks again for the best, by far hunting week of my life"

## Father-Son/Father-Daughter Hunts

Foggy Mountain's bear hunts always include couples, father-son and father-daughter hunters — not to mention our many mother-son, mother-daughter and husband & wife hunting teams.

Unlike bear hunts with most outfitters, Foggy Mountain's private & flexible lodging is especially appreciated by our mixed family groups.

Junior hunters from age ten to fifteen are welcome. Maine requires they hunt with an adult present. From sixteen on, hunters may hunt alone.

Foggy Mountain can make this family experience a great one for the youngster, and even give Dad a chance to test his hunting skills.

Call us for details on a special plan that Dads really like. After the Junior Hunter kills a bear, we can make it possible for you to hunt bear for the remainder of the week if conditions are right. We even have special pricing arrangements to help you out.

"Brandon and Becky are very professional and yet treat every one of their customers like an old friend. I could not have asked for a better experience with my first bear hunt!"  
— Stacy and Richard Hott, Norway ME

## Brook Trout Bonus

Maine has 97% of all the wild brook trout waters east of the Mississippi.

In September, the larger trout move from lakes into rivers on their annual spawning run. Their spawning colors are beautiful and 18 inch brookies are taken regularly.

Many of Foggy Mountain's West Branch hunters enjoy fantastic wild brook trout fishing each morning right at the lodge or in the many pristine streams nearby. Our guides will direct you to the local hot spots.

## Rules, Rules & More Rules

It is hard enough to keep up with ever changing hunting rules, but CDC rules meant that Surf & Turf day at Foggy Mountain had to be postponed this year. We look forward to resuming our traditional feast in 2021. 🐾

"I couldn't have been more pleased with Foggy Mountain Guide Service. It was definitely the right choice for my first black bear hunt. Aside from shooting a great boar, the entire experience was top notch"  
— Loren Holland, TX

## Preseason Bear Hunting Tip: *Shoot...and Shoot Often!*

## Bear Activity

The 2020 season had the bait sites very active. We went through a record amount of bait due to so much activity.

While sending so many trophy bear home with hunters, our sightings tally showed that a record number of sows and cubs had been passed up on by our hunters, ensuring a great future here at Foggy Mountain.

The reason for so many sows and cubs compared to other seasons was the 2019 Natural food crop.

In 2019, every source of natural food produced a bumper crop. The abundance of food made for very healthy bear, and most sows that were able to breed, did so, and they were then able to give birth to and raise very healthy cubs.

We look forward to watching these young bear grow into trophy bear that our hunters can put a tag on in the future!

## 2021 Bear Hunts

Foggy Mountain's two most popular bear hunting packages are geared to suit everyone's individual needs.

Both hunts are in bear infested regions where we have hunted or performed field research for decades.

Bear hunting success is the same in both areas, only our accommodations are different:

- Lodging for our **Katahdin-Highlands Region** hunts is housekeeping style (each cabin has a full kitchen).
- Lodging for our **West Branch Region** hunts is American Plan (all meals are included).

Both hunts are on private lands with access controlled by gates, as are 95% of our total hunting territories.

### Katahdin-Highlands Hunts

You will be hosted at our new base camp on Ebeemee Lake, where you can meet other hunters, share stories, and we even have wireless internet for those who "just can't get away from it all."

We offer excellent housekeeping accommodations in comfortable cottages or camps. We match your lodging to the size of your party and the area you are hunting.

We provide bedding and household equipment. You'll have everything you need to prepare your own meals inexpensively. There are also several places to eat within easy driving distance.

"Highly recommend Foggy Mountain Guide Service! The lodging was rustic with all you can eat buffet meals! The experience was so amazing. We will definitely be back."

— Kevin Bostic and Amanda Moore, IN

"My guide was courteous, knowledgeable, and professional. It was obvious that he had spent a great deal of time picking out the bait sites. He walked us in, and when it came time to find a bear, displayed more tracking skill than I have ever witnessed. I was impressed at how he found the first blood, in the dark, in the wet brush, and tracked my boar without dogs."

— Loren Holland, TX

### Private Lodging

Private & Flexible – Unlike bear hunts with most outfitters, lodges and sporting camps, Foggy Mountain's bear hunting guests are not doubled up in a bunk house with other guests.

Your party will enjoy the privacy of your own cabin or sleeping room, and the good night's sleep that is important for a good hunt - whether you come alone, with a large group, with your spouse or whole family.

### Questions?

Foggy Mountain hunters always ask lots of questions. Who wouldn't? You put a lot on the line when you book a hunt — your time and money. You deserve to know what to expect, and how to make the most out of your hunt.

Brandon tries to answer many of those questions on the "FAQ" page of Foggy Mountain's website.

We strive to make your hunt a successful one, and to be available when you have questions. While Foggy Mountain's guides are generally in the woods most of the day, and sometimes evenings, Brandon is typically at camp skinning bear and answering questions — unless he's also out tracking.

But the most important questions are the ones you need to ask before you book a hunt.

Our overall goal is to supply you with detailed information so you have no surprises.

We are Proud to be a Member of our Industry's Supporting Organizations

## Spring Turkey Hunts

### 2021 Turkey Season:

Hunt May 3rd to May 7th, or  
Hunt May 10th to May 14th, or  
Hunt May 17th to May 21st, or  
Hunt May 24th to May 28th

Maine's turkey population is booming! Wild turkeys were re-introduced over twenty years ago and the population flourished thanks to the excellent habitat provided by Maine's reverting farmsteads.

Foggy Mountain's turkey hunts are in a region full of this prime turkey habitat, where it is common to get the chance to harvest multiple birds. 🐾

"Scenery surrounding the lodge was beautiful, and I couldn't get enough of looking down to the river."

— Loren Holland, TX

## Rabbit Hunts

### 2021 Rabbit Season:

One to 5-Day Hunts  
December 1st thru March 31st  
Youth Hunters Half Price

Our action-packed Rabbit (Snowshoe Hare) hunts start at 8 AM when we head to prime rabbit cover and then turn our well-trained beagles loose. We put you in a prime crossing location while the beagles circle the rabbit back toward you.

We enjoy a break from all the action at noon for a tailgate lunch, then head back into the thicket for more afternoon action.

Weapon of choice is a shotgun (410, 20, 12, & 16) so this hunt lets everyone take aim at a rabbit in front of our beagles regardless of age or shooting ability. 🐾

"Brandon runs an excellent outfit and is a true sportsman who cares about the growth and health of the bear! That is what separates a professional from a guide who takes your money and doesn't care what you shoot."

— John Gray, Wheeling, WV

"You guys are super hard working and do whatever it takes to try and get us a bear. I have hunted all my life in numerous states, for many types of game. This bear hunt with you is by far the most exciting I've ever experienced. Already thinking about the next hunt with you!"
